EDUCATION

Vellore Institute of Technology — **Chennai, Tamil Nadu**

Bachelor of Technology in Computer Science (Data Science Specialisation) — *Graduation: May 2027*

SKILL SUMMARY

Programming Languages: Python, Java, SQL, JavaScript, C/C++
AI & Generative AI: Machine Learning, Scikit-learn, Predictive Modeling, Anomaly Detection, Feature Engineering, Model Evaluation, Generative AI, Large Language Models (LLMs), LangGraph, Retrieval-Augmented Generation (RAG), Natural Language Processing (NLP), Prompt Engineering, Semantic Search, LangChain
Data Science & Analytics: Pandas, NumPy, Exploratory Data Analysis (EDA), Data Cleaning, Data Preprocessing, Statistical Analysis, Customer Segmentation, Predictive Analytics, Power BI, DAX, Data Visualization, KPI Reporting
Backend & Application Development: FastAPI, Flask, REST APIs, API Integration, React.js, Authentication, OOPs
Databases & Data Management: MySQL, SQLite, MongoDB, Redis, SQLAlchemy, Database Design, Data Warehousing
Tools & Platforms: Git, GitHub, Jupyter Notebook, VS Code, Microsoft Excel, Streamlit

EXPERIENCE

AI for Sustainability Virtual Intern **|LINK** — ***July – Sep, 2026***

- Completed an AI-focused virtual internship covering Generative AI, Prompt Engineering, RAG, Agentic AI, and Responsible AI, with hands-on exposure to enterprise AI workflows and LLM applications.
- Applied RAG and semantic search concepts using document ingestion, embeddings, vector databases, and retrieval pipelines to improve the grounding and reliability of LLM responses.
- Built an Energy Anomaly Detector using Python, Pandas, NumPy, and Isolation Forest, detecting 9 anomalies across 6,918 test hours (0.13%), with automated email alerts, privacy safeguards, transparent scoring, and rate-limited notifications.

PROJECTS

Docwise **|LINK**

- Built an AI-powered PDF question-answering system using Google Gemini and RAG, enabling contextual question answering over documents exceeding 200 pages.
- Developed a document processing and retrieval pipeline combining PDF extraction, chunking, embeddings, and semantic retrieval, achieving 95%+ query accuracy.
- Integrated FastAPI and LLM inference to deliver an end-to-end AI application for document understanding and conversational querying.

Financial Transaction Anomaly Detection & Audit Dashboard **| LINK**

- Engineered an end-to-end Python analytics pipeline processing 50K+ PaySim transactions, incorporating data validation, duplicate detection, statistical outlier analysis, vendor-velocity checks, HHI concentration analysis, and Isolation Forest.
- Designed a star-schema SQLite data warehouse and implemented a composite 0–100 risk-scoring framework, identifying 357 high/critical-risk transactions with end-to-end analysis completed in under 7 seconds.
- Developed a 5-page Power BI dashboard with 20+ DAX measures to deliver vendor risk, anomaly-rate, and transaction trend insights, supported by automated pipeline tests.

API Rate Limiter Library **|LINK**

- Built a Python rate-limiting library implementing five throttling algorithms, Redis integration, and reusable Flask/FastAPI middleware for API automation and reliable traffic control.
- Designed a modular, thread-safe architecture with pluggable storage backends to support concurrent request handling and reliable API behavior across application environments.
- Developed 30+ PyTest automated tests covering concurrency, edge cases, and algorithm correctness, and packaged the library on PyPI for reusable software development.

AI-Powered Expense Receipt Scanner & Analytics Platform **|LINK**

- Built an OCR-based data extraction pipeline using EasyOCR, OpenCV, and NLP to transform unstructured receipts into structured transaction data, improving processing efficiency by 40%.
- Developed data preprocessing and expense categorization workflows to clean, validate, and organize extracted transaction data for downstream analysis.
- Built analytics and reporting features for spend trends and budget tracking, converting transaction data into actionable financial insights for end users.

Certifications

- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional **|LINK** 2026
- Deloitte Australia Data Analytics Job Simulation **|LINK** 2025
